The Student Council is composed of representatives from Grades seven through twelve, FHA, FFA, Band, Chorus, and Varsity "V". The purpose of the Student Council is to give High School students experience in the promotion of good citizenship and the development of sound democratic principles, to promote leadership and create a clear understanding between students and teachers, and to render services to the school which are not covered by other organizations. A few of the projects which the Student Council sponsors are: an all-school party, intramural program, cafeteria program, operates the school book store, safety program, Christmas decorating contest, and clash day.

The mixed chorus has had a rather interesting year. For the first time since Mr. Scothorn has been here, we have had enough choir robes for every individual member. We've had some fine performances this year. By and large the enthusiasm and drive has been excellent. Music here at Van Buren is definitely on the up-swing.

The Black Knight Marching and Concert Band has had an excellent season this past year. The band was well received during the marching season and has had tremendous response during the concert season. A great vote of thanks must be given to the community for its wonderful support in our drive for new uniforms. It is very rewarding to work in a situation where efforts are appreciated.

THE TRANSPORTATION DEPARTMENT

Our transportation dates back to the fall of 1917 when present school system was inaugurated. The equipment at this time consisted of a number of horse drawn buses. Pupils living along the electric railway were provided with transportation by this means during the first year, through an agreement with the railway management.

As time passed better equipment was provided from time to time, until at present we are operating six motor driven buses, three of which have a carrying capacity of approximately 40 pupils and which are quite modern for this type of vehicle. It is the aim of the department, and we feel the wish of a majority of the patrons, to provide as soon as possible enough buses to adequately care for all pupils transported without the necessity of having two dismissals as is the case at present. This would eliminate to a large extent the present practice of buses making long runs without passengers, besides making for better conditions in the school.

The average number of pupils transported during the school year 1929-30 was approximately 360. One of the aims of the transportation department is to furnish safe reliable transportation as cheaply as possible. During the preceeding year the cost per pupil per day was eight cents. This is the lowest figure attained for any single year to date.

During recent months a number of measures have been adopted to help insure safe transportation of school pupils. The state department of motor vehicles sent an Inspector to every school in the state using transportation to check the equipment. All school bus drivers are now required to be licensed Chauffers. A mental and physical examination is necessary to secure this license. The speed of all school buses is now limited to 25 miles per hour. In addition buses are required to be equipped with several pieces of equipment which lend additional safety to their operation. We feel justifiably proud in being able to state that both our equipment and personell have satisfactorily met the requirements of the state.

At the present time the personell consists of six drivers and two substitutes as follows: H. W. Trout, Boyd Huston, Claude Huntley, Dona Foust, James Goodman, and Ross Moorehead. Substitute drivers are Reuben Buckland and Oriole Elder. During the last year, George Connell, one of our oldest and most faithful drivers resigned. His place was taken by Mr. Huntley.

It is the desire and the objective of the Transportation Department to continue to furnish safe, reliable, courteous and economical service.

—ROSS MOORHEAD.
